OVERVIEW OF GROWTH

GOLFZON BY
GLOBAL NETWORK

PART 1

PART 2

PART 3

Golfzon, the global leader in golf simulators,

was founded in 2000 with the aim of providing enjoyment and training to golf enthusiasts worldwide. Golf Inc. Magazines' most innovative products of 2022, and Golf Digest Editors' Choice Award for best simulator from 2017-2021, Golfzon leads the way in innovation and expertise

Golfzon has been continuously researching and developing groundbreaking technologies to provide truly-realistic golf experience anytime, anywhere. The evolution of Golfzon will continue to enable more people to enjoy golf to the fullest.

With over 545 patents, Golfzon continues to lead the industry offering a wide range of products for various virtual sports. The introduction of TwoVision has propelled Golfzon into the spotlight, delivering the ultimate golf experience.

GOLFZON BY
GLOBAL NETWORK

PART 1

PART 2

PART 3

SUNGJAE IM

Thanks to Golfzon's impressive engineering system, I am now able to work on my golf game with real-time feedback regardless of the weather or outside conditions. Golfzon's precision technology enables me to play and swing my way, even indoors. This means that no matter what time of day it is, I can continue to improve my skills and enjoy golf to the fullest.

DAVID LEADBETTER

The adjustable electronic floor plate matches the exact lie of the ball and makes the play feel very technically accurate. Having played on a lot of prestigious golf courses, the fantastic graphics combined with the simulator technology make it feel like you are outside playing on the course.

MATTHEW WOLFF

Golfzon helps me keep my golf sense even if I train at home. I can practice any time regardless of the outside conditions. I also practice on Tour golf courses virtually, which has been amazing.

OVERVIEW

PART 1

G-TOUR

WHY GOLFZON?
ONLY GOLFZON!

PART 2

PART 3

G-TOUR

The world's first
golf simulator stadium
was built inside of
GOLFZON ZOIMARU
in 2016.

G-Tour that is based on high short-game accuracy launched in 2012 and continues to expand.

Total prize money awarded amounts to \$10 million.

Over 16 events hosted annually with prizes for each tournament exceeding \$80,000.

More than 3,000 members hold professional certifications.

WHY GOLFZON? ONLY GOLFZON

OVERVIEW

PART 1

G-TOUR

WHY GOLFZON?
ONLY GOLFZON!

PART 2

PART 3

Course Mapping

Every square inch of virtual Golfzon courses is measured by our proprietary tri-layer videography technology to create crisp, 1080p HD visuals.

Stunning Graphics

Golfzon stands out from other simulator manufacturers by creating highly detailed and accurate 3D graphics for each of the 200+ courses. We utilize advanced laser scanning technology on drones and ground-level equipment to capture and replicate every detail, including individual trees. This dedication to precision makes Golfzon graphics the best in the world.

Drone course flyover mapping is paired with topographical and GPS data to provide the most robust and realistic courses available.

Each course is meticulously designed and created from start to finish in 2 months.

Every square inch is measured to provide golfers with up to 15 degrees of elevation change while utilizing a swing plate during gameplay.

Spyglass Hill Golf Course 16H

WHY GOLFZON? ONLY GOLFZON

OVERVIEW

PART 1

G-TOUR

WHY GOLFZON? ONLY GOLFZON!

PART 2

PART 3

1. Zero Latency

Golfzon's in-house software and hardware guarantee seamless synchronization, eliminating any lag in ball flight when the ball hits the screen.

The transition from physical to virtual is instant, providing immediate response and feedback. This real-time connection and responsiveness keep players fully engaged and focused on the game.

2. Short Game Accuracy

Golfzon excels in delivering an exceptional short-game experience around the green, surpassing other simulators.

Our precise sensors and meticulous course mapping combine to provide astonishingly realistic accuracy and detail, whether a player is executing delicate chips or tackling challenging putts.

3. Swing Plate

Dual Plate and Moving Swing Plate are utilized to replicate the undulations of various terrains, creating a realistic playing experience as if on an actual golf course.

4. Network Play

Network Play is the only Real-time Multiplayer Gameplay on the market. Up to 6 golfers can play simultaneously on the same course. Players can compete with others on up to 6 simulators in 6 different locations across the globe.

Experience Real-time ball flight as you watch opponents' shots soar through the air.

🎯
The most advanced
golf simulator ever created!

🎯
Our state-of-the-art TwoVision simulator utilizes the latest technology to provide an experience more closely resembling a real golf course by capturing precise data with strategically positioned sensors.

Equipped with cutting-edge high-speed, high-definition dual sensors, TwoVision surpasses all expectations in data capture accuracy.

Strategically positioned above and in front of the player, these sensors converge at a 90-degree angle, ensuring optimal data collection from every swing.

With this advanced feature, TwoVision has the ability to provide real-time ball flight representation and in-depth swing analysis with remarkable precision and detail.

PART 3

TwoVision Key Features Hardware

- The most advanced camera sensor (one on the ceiling and one in the kiosk) at 90 degrees provides the most accurate ball flight parameters measuring club path at impact.
- Diminishes any shadow interference from unwanted light sources.
- Compatible with all of our hitting surfaces: tri-surface hitting mat, five-surface hitting mat, moving swing plate, and dual moving swing plates.

- Two independently moving hitting and stance platform that brings virtual course topography into reality.
- Simulates different slopes on the course where the ball lies with 14 different slope points for a realistic course experience.

- LED visual putting guide is a small LED indicator showing suggested direction of the putting stroke.
- Increases your putting efficiency with this visual aid at the end of the fairway mat.

- Mat consists of a fairway mat, two types of bunker mats, and two types of rough mats with different textures, enabling a more realistic play from heavy rough to a green-side bunker.

- Separate monitors allow you to change the setting from the kiosk control monitor while keeping the main screen monitor at your current game without disruption.

TwoVision Key Features Software

3 Distinct Game Modes

- In the stroke game, choose from 3 levels of game mode and set your course conditions.

Normal Mode

Enjoy playing a round just as you would outside.

Semi-tour Mode

Increased difficulty that challenges seasoned golfers.

Tour Mode

As real as it gets: varying levels of penalties from the rough and bunkers and no putting grid assistance.

Virtual Caddy

- Your virtual caddy shows a personal course guide that appears at the bottom left of the screen to guide you with important information on the course.

Visual Divot Sensing Feedback

- Sensor camera captures club path and angle of attack from your stroke.
- Instantaneous display of club face impact area and the virtual divot your club head has created.
- You can easily see 'ball first' or 'ground first' at impact.

Network Play

- Connect with your golf buddies and play a round of golf any time, anywhere.
- Network Play function allows you to enjoy golf at different locations or different time zones in real time.
- Golfzon is the first golf simulator with social media features that allows cross-game play to compete against your buddies from around the world.

GOLFZON ARCADE PLUS

PART 3

GDR Plus Software

Access your practice data from the past 30 days and delve into detailed shot analysis with user-friendly graphic displays.

Our redesigned interface simplifies data interpretation, enabling faster coaching and analysis.

1 AI Shot Analysis

The data analysis function, utilizing five shots provides comprehensive swing diagnosis and skills improvement indicators through trend graphs.

2 Skill Test Mode

Immerse yourself in a round of golf at your favorite course, practicing each shot from tee to green with three attempts for every shot.

Practice the type of shot you need for each hole. The top center indicator on the screen will clearly display the success of your shot execution for each attempt.

3 Practice Round Mode

In Practice Round mode, you can play any round of golf in any format except for putting on our selection of approximately 30 courses.

This mode allows you to check the expected number of strokes for each shot and the score is automatically calculated based on the remaining distance after the ball lands on the green.

4 Fitting Mode

Club Fitting mode is designed to analyze your shot performance for each club based on accumulated statistical data.

It provides valuable insights on which club to use for a particular shot on the course.

PART 3

TWOVISION | **GOLFZON WAVE**

Double the excitement of screen golf with this revolutionary fusion of Golfzon and an innovative arcade game.

1 Block Smash

Players swing to blast through gem barriers on their journey to the enchanting Crystal Kingdom.

Once you successfully hit the Bomb or the Magic Color Blocks, you will be awarded those items.

2 Dart Golf

Darts golf is an exciting arcade game combining the thrill of darts with the ambiance of a Caribbean pirates' village.

Test your precision and aim as you try to score points by targeting a giant dartboard.

3 Slope Golf

Experience the nostalgic amusement park slope game transformed into a golf game.

Use your putter to hit the ball into the hole. Tally up scores to determine the winner.

4 Pro Bowl Showdown

Screen golf meets traditional arcade classics that people all over the world love! Moles have infested a peaceful farm and are wreaking.

5 Whack a Mole

Screen golf meets traditional arcade classics that people all over the world love!

Moles have infested a peaceful farm and are wreaking havoc on the crops.

Hit those pesky moles with a stone ball to score points and witness their comical reaction. Each character has a unique point system.

6 Wild Wild West

This game is inspired by the popular game called Angry Birds.

Illuminate the outlaws in buildings by swinging a bullet-shaped ball in this western town. Each hit earns you points as they disappear.

With 3 shots per round, score points by shattering the buildings or the outlaws.
